
Jaisajot Kaur

Front-End Developer | UI-Focused

Vancouver, BC • (437) 238-2488

[Email](#) • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Front-End Developer with hands-on experience designing and building responsive, accessible web interfaces using HTML, CSS, and JavaScript. Experienced in translating user needs into functional, maintainable UI with clear structure, performance awareness, and usability focus. Actively developing React skills while shipping real projects and applying modern front-end workflows. Brings strong communication, collaboration, and problem-solving abilities from client-facing and cross-functional roles.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+)

Frameworks/Tools: Git, GitHub, VS Code, Netlify, Chart.js, React.js

Platforms: WordPress, Wix, Squarespace

Design: Figma, Adobe Creative Cloud

Core Strengths: Responsive Web Design, Web Accessibility (a11y), UI/UX, DOM Manipulation, LocalStorage, Performance Optimization, Cross-Browser Compatibility

PROJECTS

Expense Tracker — Web App

Live Link: simplysmartexpensetracker.netlify.app

- Developed a responsive expense tracking application enabling users to add, filter, and manage transactions by date and category with persistent storage via localStorage.
- Implemented dynamic DOM updates and interactive data visualization using Chart.js.
- Designed clear, intuitive UI patterns to improve usability and reduce cognitive load.

Tech: HTML, CSS, JavaScript, localStorage, Chart.js

React To-Do App (In Development)

- Building a component-based task management application to practice state management, props, and reusable UI architecture.
- Prioritizing accessibility, maintainability, and clean layout principles.

Tech: React, JavaScript
